

Every organization can positively impact their bottom line

***Here is what to expect:***

- an understanding of the basic business case.
- an introduction to the language and processes of Green.
- the tools needed to begin and sustain Green strategies.
- insight into three-levels of engagement. *beginning with no-cost!*
- incentives: Federal, State, Local.

ALTERNATIVE ENERGY &  
**GREEN SYSTEMS**

## ALTERNATIVE ENERGY and GREEN MANAGEMENT WORKSHOP

Thursday, May 21  
6-9pm  
\$45

*"Every member of the management team should come prepared to address how environmental sustainability can impact their business."*

Paul Wren, President HYTEK Research Associates

The UVJVS **Alternative Energy and Green Management Workshop** is an exciting opportunity for any organization - large or small - looking for ways to go Green and cut costs. Paul Wren of HYTEK Research Associates along with the UVJVS Industrial Training team have packaged a powerful program that includes information relevant to the current business environment and global conservation initiatives.

Participants can expect to receive tips, techniques, how-to's, and resources that can immediately impact their bottom line. This fast-paced presentation will benefit business owners, senior/middle managers, and planning teams from all sectors including civic and non-profit organizations.

Industry leaders will discuss their "going green" journey including technology, investments, returns, and next steps

### *Guest Panel*

Burt Mattice, PhD., Director, Regulatory Systems & Compliance,  
Hartzell Propeller  
Ms. Jenni Bair, LEED Accredited Professional, Hobart  
Mr. Ray Davis, President, Ohio Green Wind  
Tom Tobias, Chief Engineer, Teleco Systems

### *Registration*

➔ **ALTERNATIVE ENERGY and GREEN MANAGEMENT WORKSHOP**

Registration, 937.778.8419 or 800.589.6963

May 21	Th	6-9pm
Upper Valley ATC	\$45	3 Hrs

The Alternative Energy and Green Management workshop will deal with the most fundamental of green practices. Begin moving any organization toward efficient energy usage; gain a relevant overview of solar-voltaic, wind, geothermal, and grid-energy systems/hook-ups, and recycling waste products. Who's buying your recyclables? - the answer to that simple question can reveal a corporate culture and current approach to sustainability. Workshop participants will receive a comprehensive start-up kit to help engage and equip their organization as they make the move to Green.

**COMING THIS FALL - Long-Term/Career Development Program**

**Alternative Energy & Green Systems**

Art Bowser, 937.778.8419

September 28, 2009	M-Th	6-9:30pm
Upper Valley ATC	Please call	PELL Grant Fundable

The central focus of these "green" happenings at the UVJVS is to create opportunities and career pathways for individual students. The Alternative Energy and Green Systems Program will kick off this coming September with a full Career Development Program. The PELL Grant fundable training options will last up to five quarters. This program is going to create exciting opportunities for men and women of all ages, backgrounds, and interests. UVJVS Adult Division is now part of the University System of Ohio. Students can apply what they achieve at the UVJVS toward college credit if desired.

In the foreseeable future it is anticipated that expertise in alternative energy will become the standard for building inspectors, contractors, builders, HVAC/R technicians, plumbers, grounds, facilities/plant maintenance and management.

The Alternative Energy and Green Systems Program will cover Science and Environmental Systems during Quarters 1 and 2. Quarters 3 and 4 focus on Solar, Wind, Geothermal, and other Alternative Energy Resources. Quarter 5 delves into processes, green building science, and prepares students for LEED Accredited Professional Certification exam.
